

*Hi, I'm Anton Dordzheev
Tech products designer and manager
33 years old*

2011

User interface designer at Kontur. Made Diadoc, a service for signing and interchanging electronic documents between companies. Today Diadoc is among the top three services in its field in Russia.

2016

Manager of Diadoc developer team. Helped around 30 people with different roles such as designers, UX researchers, analytics, front-end and back-end engineers, QA specialists develop and deliver the service with hundreds of thousands of users and millions transactions every day.

2018

Manager of Kontur.Retail developer team. Tried to be a manager in the team that wanted to be a teal organization. Unforgettable.

2020

Business and customer development researcher. Researched ECM systems in Russia, looked for undiscovered profitable area.

2021

Product manager of Kontur.Kedo. The right hand of founder and Jack of all trades. A startup for working with HR documents was founded in 2020. It had ×10 growth in the second year and ×4 growth in the third year.

2023

I'm open to work as a product designer. Let's build a great product together.
